THOMAS JEFFERSON SWCD

John E. Easter, II

The Rivanna River Basin Commission was created by Acts of Assembly in 2004. The Commission is comprised of fourteen members who represent four local jurisdictions and various other governmental and non-profit organizations in the area served by the Commission (see § 62.1-69.47 of the *Code of Virginia*).

The Commission is funded through various sources such as federal and state grants and private donations. The Commission has both advisory and advocacy responsibilities. It also serves as a conduit for funding various water conservation projects in the area. The members of the Commission vote on the actions associated with seeking and disbursing of the funds received. Often the ultimate recipient of the funding is one or more of the political subdivisions or the non-profit entities whose officers or staff serve as Commission members.

The Commission members request guidance on the applicability of the Conflict of Interest Act on their participation in the transactions and contracts that are awarded. For example, would a member of a Board of Supervisors who is compensated for such services in excess of \$10,000 per year have a conflict of interest if he or she voted as a Commission member on applying for a grant or awarding grant funds to which his or her political subdivision is the ultimate recipient? And, would an unpaid officer of a non-profit or the unpaid board member of the Soil and Water Conservation District serving on the Commission be able to participate or vote as a Commission member on transactions or contracts that award funds to or contract for services from his or her non-profit organization?

We look forward to obtaining your opinion on this matter. If you have any questions, please do not hesitate to contact me at (434) 975-0224.

Sincerely,

EXECUTIVE DIRECTOR

Leslie Middleton
